Precautions For Each

Planet - Sun

By Anita Khandpur, India

al Kitab (Red Book) is a common name heard by many people across ┛India. The remedies given in Lal Kitab are very simple and require very little time and they are inexpensive. There are many books available in the market by many authors and all of them have nearly remedies. What same important to learn is what to avoid in life. This has been my personal experience as a professional astrologer in Mumbai, dealing with various category of charts & what it has been observed by this scribe is that it is not the remedies one does to solve ones problems that an astrologer needs to tell his clients but what the client should never land up doing on his own which will cause his downfall, this is what the astrologer must warn his clients. This would be a 9 part series which I have culled out from Lal Kitab and one rare old Gujarati Book, which i have observed to work very well in my experience over decades.

Sun

Sun in 1H

If Sun is in the 1st house then he/she should avoid sex during daytime. This should be

followed even if Sun is not in 1H. It spoils the long term relation of both the partners also affecting their name and reputation. As per my experience it should be strictly avoided on Sunday and on Sun's nakshatras (Kritika, Uttara Phalguni, Uttarashadda) during day time. The malefic results will be more for the person whose horoscope Sun is weaker.

I know of a singer who usually preferred sex during daytime because he used to do his recordings at late nights, he got involved in a scam but by control and doing the Surya pooja his reputation was saved not causing much harm.

A native 50yrs Pisces Asc with Sun in 5H, this person manipulated his in-laws, wife and his business partner. Today he is left with no business and is fighting a divorce case against his wife since 6 years with no results and now children also manipulate his feelings for their personal gains. His father has left him enough for his survival.

Sun in 6H:

Do not take or bring things at home donated at a religious place instead donate.

A family was facing financial crunch at one time. During that period their Guru used to help them sponsoring them for their children's education and give them fruits, food grains etc donated at his temple. Her younger son had Sun in the 6H. When this was pointed out to her, in spite of all resistance she refused help from that person and within months their position became better with their hard work.

It is also said not to keep a Tandoor (ref cooking) at home. Please observe the results if you have an electric tandoor also at home.

It is also recommended to blow off the fire place or gas at night with milk. This in my practical

experience shouldn't be done everyday. This weakens the Mars power if done regularly.

Sun in 8H

Keep your Character clean and avoid wrong deeds.

An Elderly Businessman decided to go for early walks with his wife. They used to leave the house at 6am, and on their way back home went to the temple and donated money to beggars outside. In one year their business suffered losses and in spite of pointing that his Sun is in the 8H & not to do charity during sunrise he wouldn't stop coz of his ego. Then his wife decided to go late to the temple after 8am, telling her husband that she can't get up early in the morning and after changing the time of charity their financial problems started getting solved.
